Chair Andreson and Members of the Hopkins School Board,

I have sent multiple emails notifying you of concerns surrounding Michael Thomas's fitness to serve as a district authority. Attached please find a pending records request in which Michael, in his own words, admits in writing to concealing a failure of mandated child-reporting obligations.

Clearly this is a significant concern. If the current non-engagement response continues, I will have no choice but to begin bringing this information directly to members of your district.

Respectfully,

[Redacted]
