Dear PLSAS School Board Directors:

Attached is a short board governance notice titled **Catastrophic Record Integrity Failure**.

This notice concerns the volume and pattern of record-correction issues identified so far in our child's District-maintained records. We are not asking individual Board members to adjudicate each correction point. We are asking the Board to treat the pattern as a governance-level record-integrity risk, ensure the pending correction requests are assigned to a responsible reviewer, preserve routing and review records, and ensure the District provides timely written determinations, source-record bases, no-records statements, or corrections as required.

For routing and preservation purposes, please preserve records showing Board receipt, routing, assignment, review, and follow-up for this notice, including any record identifying the person, office, designee, counsel, administrator, independent reviewer, or other assigned handler responsible for ensuring corrective action.

Your Board auto-acknowledgment represents that Board-addressed communications are received by all School Board Directors and that follow-up requests will be handled by the Board Chair or a designee. I will treat any Board auto-acknowledgment or Board response as receipt/routing accountability evidence, not as a merits response to the attached notice.

Sincerely,
